ENVIRONMENT

Roots and Blues Vendor Policy and Conditions

The goal of the Salmon Arm Roots and Blues Festival is to improve our environmental sustainability. Every year we are committed, to adopt practices that reflect sustainable principles and best practices.

In 2018, 2019, and this year we have committed to implementing a composting program that includes our volunteer, vendor and beverage areas. In addition, we have implemented a policy of **no single use water bottles to be sold on site**. Your agreement with this initiative will go a long way to achieving our goal.

Fundamental to this approach is the **use of compostable plates, cutlery, napkins, straws, cups and glasses**. **The use of Styrofoam and non-compostable packaging, such as aluminum foil is not acceptable**. **Single serving condiment packages are to be avoided to prevent contamination of the compost**.

To facilitate this objective **all materials must be CERTIFIED COMPOSTABLE, NOT BIODEGRADABLE or RECYCLABLE**. There are a number of suppliers who can provide this type of material to you, should you need help in sourcing these materials please contact us for a list of suppliers.

2. **Recyclables** – These must be kept separate and transferred to one of our waste stations for pickup by our Environment Crew. **Items for recycling must be cleaned prior to being placed in the recyclable receptacles, non-cleaned items are considered as contaminants and will have the recyclables rejected by our service provider.** A list will be provided to you. Clean cardboard will be collected separately.
3. **Returnables** for deposits – These must be kept separate and transferred to one of our waste stations for pickup by our Environment Crew.
4. **Garbage** – Any material not fitting the above criteria.
5. **The damage deposit is \$500, we have had vendors who left cooking oil for us to clean up and also some vendors did not comply with the new enviro policy and used recycling items and not compostable products or just neglected to comply.
